Due to high volume and demand for auto detailing services this time of year, and our involvement in detailing many vehicles for the Pebble Beach Concours d'Elegance, we are booked up until the week of 9/10-2017.

This page is currently still under construction but will give you a rough idea of our pricing. Keep in mind this is a very small list of services we offer. If you are price shopping or looking for the cheapest detail in town, Central Coast Auto Spa is probably not the shop for you. We are NOT the cheapest detail shop in town. Proper auto detailing takes time, patience, skill, training, lots of specialty tools, cleaners & chemicals, insurance etc. Thus we have found in this industry, you absolutely get what you pay for.

The pricing for our details is highly dependent on vehicle condition. Overly dirty interiors/exteriors or vehicles that have not been detailed in the past year usually take more time, and thus will cost more than vehicles that are maintained and detailed regularly.

Complete Interior Detail $160 - $300+

This service involves a complete detailing of the entire interior of the vehicle including all of the following:
- Upholstery
- Carpeting
- Leather (deep cleaning and conditioning included)
- Headliner
- Seat belts
- Windows
- Dash
- Door panels
- Vents
- All compartments and cup holders

We utilize steam, hot water carpet extractors, air compressors, and an arsenal of brushes and cleaners to get the vehicle interior as clean as possible.   This service is for those who are looking for an interior-only detail, nothing on the exterior.

The time requirement usually ranges from 4 to 6+ hours to complete.

Additional charges will apply to vehicles that have pet hair, are excessively dirty, or have biohazard material present (blood, vomit, urine etc.).

Complete Exterior Detail $140 - 265+

This service involves a complete detailing of the entire exterior of the vehicle including all of the following:

- Thorough cleaning of all exterior surfaces including all painted surfaces, windows, wheels, tires, fender wells, door jams, front and back bumpers, grilles or grille inserts, exterior plastic and trim, convertible tops (if applicable), exhaust tips, etc.
- Removal of exterior tar buildup and iron paint contamination.
- Clay bar to remove bonded paint contaminants.
- Sealant and/or wax application on painted surfaces and exterior plastic.
- Application of dressing on tires and fender wells.

We utilize many different methods including various cleaners, brushes, pressure washers, foam guns-cannons, and contaminant dissolving chemicals to get the exterior of your car as
